

REFUSE SOLUTIONS

Vulcan On-Board Scales provides a variety of weighing solutions for the refuse industry including a fixed and tipping refuse body scales, front fork scale systems, roll-off scale solutions, hooklift scale solutions, and transfer vehicle scale systems, and more.

Our on-board weighing systems help you haul more efficiently by maximizing your legal load out of the transfer station. They are also effective for auditing your pick-up routes, and avoiding maintenance and liability issues due to overloading.
