** Cycle Times are Factory developed and controlled by PTO output, oil viscosity, human and mechanical efficiency, and may vary accordingly.*

CAUTION: This Equipment Should be Operated by Properly Trained Personnel. Improper Use, Misuse, or Lack of Maintenance Could Cause Injury to Persons or Property. Photos used in this brochure are illustrative only. We reserve the right to make changes at any time without notice. Information contained within this literature is believed to be the most accurate available at the time of printing.

HOIST FRAME DETAILS

OUTSIDE RAIL CONTAINER REQUIRMENTS

AFOR SERIES
ABOVE FRAME OR HOIST

Our above frame hoist designed, but not limited to CNG chassis, features outboard mounted lift cylinders and a vertical lift assist cylinder. It is designed to operate with low pressure, which will increase its life and reduce maintenance costs.

THE GALFAB ADVANTAGE

Auto Fold Bumper

Bumper folds forward reducing the chance of bending and hang-ups in the landfill.

Outboard Supported Side Rollers

Greasable Roller shaft is removable with two bolts for ease of replacement and maintenance.

Container Long Sill Supports

Standard on all Outside Rail Hoists making it easier to load and unload containers.

Outboard Mounted Lift Cylinders

Allows for dual winch cylinders providing more capacity at lower operating pressures and a wider base therefore much more stable when raised.

The “Tricep” Vertical Lift Assist

The Tricep allows our AF to operate at standard operating pressures not exceeding 2500PSI. The Tricep also enables us to build a hoist with dual reeving cylinders and outboard mounted lift cylinders.

STANDARD FEATURES

- 10” x 4” x 3/8” Main Frame Tube
- 1/2” x 3” Wear Strip on Top
- 1/2” x 4” Spacer Bar on the Bottom Side of the Mainframe
- 3” x 3” x ¼ inch Sub-Frame
- All Working Points Greaseable
- 2 1/2” Diameter Rear Hinge
- Pintle Ready Apron
- Auto Fold Forward DOT Bumper
- 1” Spring Loaded Container Locks
- 2 1/2” Diameter Lift Cylinder Shafts
- 12” Diameter Vertical Sheave and 10” Horizontal Sheaves
- 3/8 inch x 3 inch Winch Cylinder Rod Covers
- 6 Inboard and Outboard Supported Outside Rollers
- Container Long Sill Supports on Rear of Hoist Mainframe
- 30 Gallon Oil Reservoir with Sight and Temperature Gauge
- 25 Micron Filtration
- Inside and Outside Controls
- Dual Inboard 6 inch Diameter Winch Cylinders
- GALFAB Patented “Tricep” Lift Assist Cylinder
- LED Lighting System
- 7/8” Cable with Heavy Duty Swivel Eye Hook
- 12” Diameter Vertical Front Sheave
- 12” Diameter Horizontal Sheaves
- 12” Diameter Sheave Blocks
- Suction Screen and Return Filter
- 2-1/2” Diameter Lift Shaft
- Main Frame Wearstrips
- 2-1/2” Diameter Rear Hinge
- All Working Points Greasable
- 1” Spring Loaded Container Stops
- Front Mount Pump
- Low Working Pressure of 2500PSI
- Hoist Up Warning Light
- Sealed Wiring System
- Hoist Up Alarm
- Backup Alarm

OPTIONAL FEATURES

- Pintle Hook Options
- PTO
- On Board Scale Systems
- Work Lights
- Rear View Camera Systems
- Ratchet Tie Down Straps
- Tool Boxes
- Auxiliary Stops
- Poly or Steel Fenders
- Aluminum Fenders
- Tarping Systems
- “The Hooker” Hold on System
- Integrated hydraulics can be used, if hydraulic tarping system is used

“The Hooker” Container Securement System

Auxillary fold down stops

Hydraulic Reservoirs

Tool Boxes

Poly, Steel & Aluminum Fenders

Sanitary Equipment Co., Inc.

NEW ENGLAND'S LEADER IN THE REFUSE & ENVIRONMENTAL EQUIPMENT INDUSTRY

Get it done right, the first time

ABOUT US

Second generation, family owned since 1977, Sanitary Equipment Co. delivers trusted contractor & municipal equipment solutions backed by decades of experience and dedicated customer service.

OUR MISSION

To provide durable, reliable equipment and responsive support so contractors and municipalities can depend on us for the long term.

LABRIE

Automated side loaders, front loaders, and rear loaders equipped with advanced packer systems, engineered for durability, efficiency, and consistent performance in municipal and commercial refuse service.

LEACH

Rear loader refuse bodies designed for commercial and municipal collection, known for durable construction, efficient compaction and reliable performance on daily routes.

GALFAB

Cable hoist systems for roll off containers, engineered for contractor and municipal hauling with heavy duty construction, smooth operation and long term durability.

LOADMASTER

Rear loader refuse bodies for commercial and municipal collection, engineered for rugged construction, efficient compaction and dependable performance on demanding daily routes.

KANN

Rear load and front load refuse bodies engineered for commercial and municipal refuse collection programs, offering robust construction, efficient compaction and dependable performance in daily service.

AMERICAN ROLL OFF

Cable hoist systems for roll off containers, designed for municipal and contractor hauling with straightforward operation, rugged construction and long term reliability.

MARATHON

Stationary and self contained compactors, for municipal and commercial waste handling, known for rugged construction and long service life.

PALFINGER

Hooklift systems, container carriers, and grapple loaders delivering flexible hauling solutions for contractor and municipal operations.

STELLAR

Hooklift systems and service bodies for interchangeable body hauling and fleet support applications, offering flexible configurations for contractor, utility and municipal operations.

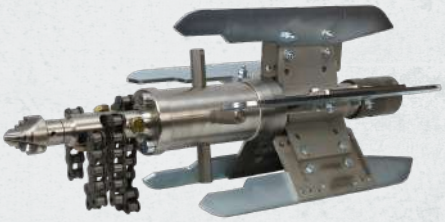

DIG PIG

Hydro excavation and sewer cleaning nozzles, engineered for aggressive cutting, reduced noise and efficient debris removal in demanding applications.

HYDRAFLEX

Hydro excavation and sewer cleaning nozzles, designed to improve efficiency, safety and performance in vacuum truck operations.

KEG

Sewer cleaning nozzles engineered for high performance pipe cleaning, delivering effective blockage removal, durability and consistent results in demanding applications.

ODB

Chassis mounted and trailer mounted vacuum systems for leaf, litter, and catch basin cleanup, delivering reliable performance for municipal maintenance operations.

CUES

Pipeline inspection cameras, robotic crawlers, and sewer inspection systems for industrial and municipal applications, supporting accurate condition assessment and efficient underground asset management.

SONETICS

Wireless communication headsets and crew intercom systems designed for high noise environments, improving safety, coordination and productivity for vacuum truck and field operations.

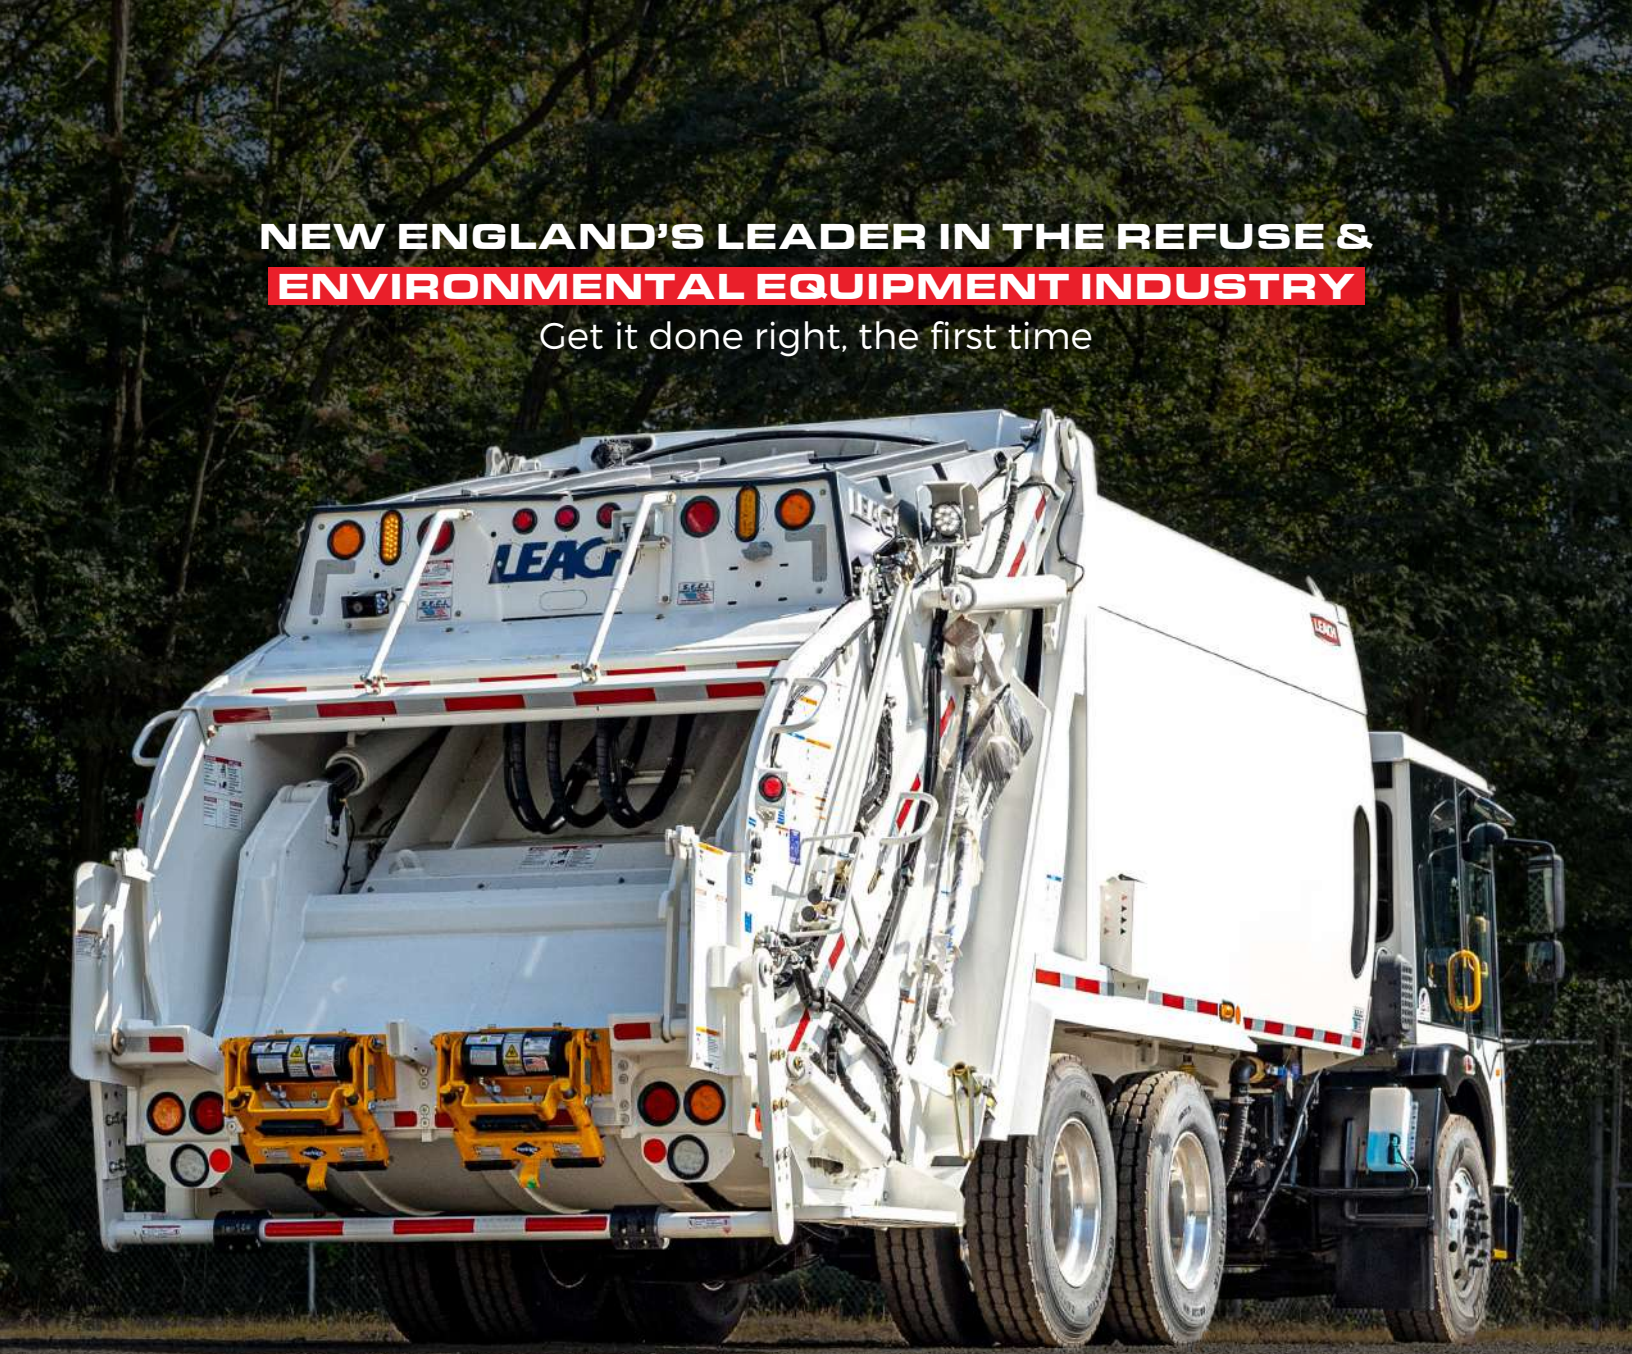

VAC CON

Combination sewer cleaners, hydro excavators, jet trucks, and trailers engineered for contractor and municipal applications, providing powerful debris removal, efficient operation, and proven reliability.
