The Difference Is Performance!

SEWER NOZZLE

Excellent efficiency for larger sanitary and storm lines

TIER THREE FLUID MECHANICS

Available for hoses from .75" through 1.5", KEG's Sewer Nozzle is truly a "Heavy Weight" in the sewer and storm water cleaning industry. The Sewer Nozzle ranges in weight from 17 to 22 pounds and is sure to stay centered in the bottom of the pipe for effective cleaning action.

The 15° and 20° jet angles give the operator high wall force with a wide water pattern necessary to clean large diameter pipes of buildup and debris. The 10 or 12 insert set-up can be configured in steel or titanium ceramic. The Sewer Nozzle is a Tier Three Nozzle, and is over 80% efficient!
