

HOT SHOT

The Hot Shot is a powerful yet versatile machine that offers superior high-pressure flushing action to clear all types of debris.

The Hot Shot's superior high-pressure flushing action gives the added power needed to clear stones, bottles, cans, grease, sludge, and other stagnant debris from sanitary sewer and/or storm drain lines. Like all tough Vac•Con machines, Hot Shots are equipped with a non-corroding, polyethylene water tank and all the controls to do the job right are located at the hose reel operator station.

- Sewer jetting
- Spill dilution and clean-up
- Pipeline maintenance and prevention
- Quick unit for emergency blockages

JETTER SPECIFICATIONS

At Vac•Con we pride ourselves on building mahcines that are custom built to fit the needs of our customers. As a result, Vac•Con wins out on value, performance, and reliability every single time.

VJT1500 <i>Enclosed Jetter Truck</i>						
Axle Setup	Drive System	Water Capacity / Pump	Hose Reel Type / Location	Wireless Remote	Dimensions Height / Length	Additional Options
Single or Tandem	Hydrostatic	1,500 or 3,000 Gallons — 30–80 GPM Up to 3,000 PSI	Articulating — Rear	Available	Max Height: 11' 5" — Max Length: 29' 5"	Street flushing package, Heated enclosure, Winter recirculation, Retractable awning, Safety lighting package, Safety camera package, Lateral line kit, Anti-freeze water pump system, Additional low-pressure hand gun hose reel, Cone rack storage

VJT750 <i>Jetter Truck</i>						
Axle Setup	Auxiliary Engine	Water Capacity / Pump	Hose Reel Type / Location	Wireless Remote	Dimensions Height / Length	Additional Options
Single	Diesel	750 Gallons — 18–40 GPM 2,000–4,000 PSI	Rotating — Rear	Available	Max Height: 8' — Max Length: 26'	Safety lighting package, Safety camera package, Anti-freeze water pump system, Winter recirculation, Lateral line kit, Diamond plate package, Additional hand gun hose reel, Cone rack storage

VJT-V <i>Jetter and Vacuum Truck</i>									
Axle Setup	Auxiliary Engine	Hose Reel Type / Location	Vacuum Type / Drive	Filtration Type	Debris Capacity	Water Capacity / Pump	Wireless Remote	Dimensions Height / Length	Additional Options
Single	Diesel or Gas	Rotating — Rear	PD Blower — Auxiliary Engine	Cyclonic Separator — PD Blowers Include Final Filter	150 (Gallons)	375–750 Gallons — Up to 30 GPM Up to 4,000 PSI	Available	Max Height: 11' 5" — Max Length: 25'	Street flushing package, Safety lighting package, Safety camera package, Anti-freeze water pump system, Winter recirculation, Lateral line kit, Debris tank flush out, Additional hand gun hose reel

Hot Shot <i>Jetter Truck</i>						
Axle Setup	Drive System	Water Capacity / Pump	Hose Reel Type / Location	Wireless Remote	Dimensions Height / Length	Additional Options
Single or Tandem	Hydraulic	Up to 2,500 Gallons — 30–80 GPM Up to 3,000 PSI	Articulating — Front	Available	Max Height: 11' 5" — Max Length: 38'	Safety lighting package, Safety camera package, Anti-freeze water pump system, Winter recirculation, Lateral line kit, Diamond plate package, Additional hand gun hose reel, Cone rack storage

VJ Series <i>Jet Trailer</i>						
Axle Setup	Auxiliary Engine	Water Capacity / Pump	Hose Reel Type / Location	Wireless Remote	Dimensions Height / Length	Additional Options
Single or Tandem	Diesel or Gas	375 or 750 Gallons — 18–40 GPM Up to 4,000 PSI	Rotating — Rear	Available	Max Height: 8' — Max Length: 26'	Dual hose reel setup, Safety lighting package, Anti-freeze water pump system, Winter recirculation, Lateral line kit, Cone rack storage

**Sanitary
Equipment**
Co., Inc.

NEW ENGLAND'S LEADER IN THE REFUSE & ENVIRONMENTAL EQUIPMENT INDUSTRY

Get it done right, the first time

ABOUT US

Second generation, family owned since 1977, Sanitary Equipment Co. delivers trusted contractor & municipal equipment solutions backed by decades of experience and dedicated customer service.

OUR MISSION

To provide durable, reliable equipment and responsive support so contractors and municipalities can depend on us for the long term.

CONTACT US

www.sanitaryequipment.com

LABRIE

Automated side loaders, front loaders, and rear loaders equipped with advanced packer systems, engineered for durability, efficiency, and consistent performance in municipal and commercial refuse service.

LEACH

Rear loader refuse bodies designed for commercial and municipal collection, known for durable construction, efficient compaction and reliable performance on daily routes.

GALFAB

Cable hoist systems for roll off containers, engineered for contractor and municipal hauling with heavy duty construction, smooth operation and long term durability.

LOADMASTER

Rear loader refuse bodies for commercial and municipal collection, engineered for rugged construction, efficient compaction and dependable performance on demanding daily routes.

KANN

Rear load and front load refuse bodies engineered for commercial and municipal refuse collection programs, offering robust construction, efficient compaction and dependable performance in daily service.

AMERICAN ROLL OFF

Cable hoist systems for roll off containers, designed for municipal and contractor hauling with straightforward operation, rugged construction and long term reliability.

MARATHON

Stationary and self contained compactors, for municipal and commercial waste handling, known for rugged construction and long service life.

PALFINGER

Hooklift systems, container carriers, and grapple loaders delivering flexible hauling solutions for contractor and municipal operations.

STELLAR

Hooklift systems and service bodies for interchangeable body hauling and fleet support applications, offering flexible configurations for contractor, utility and municipal operations.

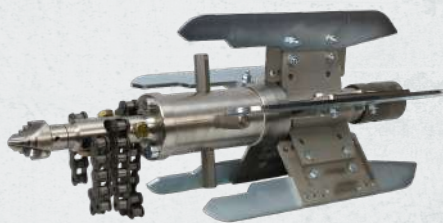

DIG PIG

Hydro excavation and sewer cleaning nozzles, engineered for aggressive cutting, reduced noise and efficient debris removal in demanding applications.

HYDRAFLEX

Hydro excavation and sewer cleaning nozzles, designed to improve efficiency, safety and performance in vacuum truck operations.

KEG

Sewer cleaning nozzles engineered for high performance pipe cleaning, delivering effective blockage removal, durability and consistent results in demanding applications.

ODB

Chassis mounted and trailer mounted vacuum systems for leaf, litter, and catch basin cleanup, delivering reliable performance for municipal maintenance operations.

CUES

Pipeline inspection cameras, robotic crawlers, and sewer inspection systems for industrial and municipal applications, supporting accurate condition assessment and efficient underground asset management.

SONETICS

Wireless communication headsets and crew intercom systems designed for high noise environments, improving safety, coordination and productivity for vacuum truck and field operations.

VAC CON

Combination sewer cleaners, hydro excavators, jet trucks, and trailers engineered for contractor and municipal applications, providing powerful debris removal, efficient operation, and proven reliability.
