VJT750

A powerful and simple to operate jetter system configured onto a convenient F600 or larger chassis

WHY VJT750

Easiest on the market to operate.

Low-profile design offers greater safety.

Water tanks and engine enclosure are designed for low-profile configuration.

Tier 4 diesel engine.

Hydraulically-driven rotating hose reel with 800-ft. capacity. 500-ft included as standard (1/2-in or 3/4-in).

Reel-mounted, weather-proof electronic control panel.

Cold weather recirculation and air purge system.

Triplex plunger water pump.

Variable flow water control valve.
