

THE VAC-CON ADVANTAGE

Vac-Con machines consistently deliver more. That means more power to vacuum and remove solids, liquids, slurries and powders from hard to reach places. When you're dealing with tough jobs in furnaces, conveyors, bag houses, cranes, pits and tanks, the higher performing, easier to use and safer Vac-Con really delivers.

Star bags make the difference! With superior cloth-to-air ratio, star bags do more with less. They are washable and are easy and economical to replace. Only 26 star bags do the work of many more conventional round bags and give Vac-Con an efficient advantage.

VAC-CON ALWAYS GIVES **MORE** POWER TO YOU

- **MORE Loads...Faster**

Automatic Material Return System - which includes timer for air cannon - is so unique it's patented.

- **MORE Time On Job**

True High Dump adds convenience without limiting capacity, dump angle or debris discharge.

- **MORE Vacuum For More Productivity**

High Performance Air Flow by Design - Blowers that develop maximum vacuum to 28" Hg. and 6100 CFM.

- **MORE Machine Life**

Wet and dry filtration in the same chamber. Simplified, high-efficiency filtration system, with enhanced capacity. Uses star bags or can be fitted with filter cartridges.

Vac-Con Industrial vacuum loaders are designed to out perform other machines from the ground up. By featuring superior air flow efficiency as standard equipment and applying innovative technology with options like Hi Dump and the patented Automatic Material Return System, these machines deliver world class performance while saving you money, time and effort. Simple to operate and maintain, our single mode machines can recover wet or dry material with up to 28" Hg. Equipped to handle the toughest jobs, these machines are right at home in the harshest environments, such as:

- Power Generating Plants
- Water Treatment Plants
- Steel Mills
- Bulk Powder Facilities
- Chemical Plants
- Foundries and Forges
- Processing Plants
- Grain Elevators and Silos
- Rail Yards
- Mines
- ...and many others.

So, whether you are purchasing, hiring or simply specifying industrial loaders, ask for the machine that does it all effectively and efficiently...ask for a Vac-Con!

A HOLDEN INDUSTRIES Company

All Vac-Cons are easy to operate, safe, durable and outperform the competition. A dedicated nationwide dealer network, backed by our **Power Up** service support program is there to deliver **More Power to You** with every machine.
